

We are excited to share that we have been approved through Child Care Aware of America (CCAoA) to offer you the opportunity to apply for the Military/DoD fee Assistance program.

You can find the information to apply at: www.childcareaware.org
Our provider ID number is #2129405.

Military family eligibility can vary based on military branch and/or deployment status and cannot be determined until the family has applied to the program.

Once the family has submitted all required documentation, their file will need to be reviewed and completed before the final fee assistance approval can be made. The final approval will be sent via email in the form of a packet entitled Certificate for Child Care. The packet is sent to both parent and provider, detailing the fee assistance amount, family/sponsor amount and attendance sheets. Please encourage any/all pending military families to contact CCAoA's Parent Services line at 1-800-424-2246 option 3 to determine their eligibility.

Please note the following general policies regarding the Military Fee Assistance program:

- The sponsor/parent is responsible for all child care fees prior to approval for fee assistance and after the expiration of a valid fee assistance certificate. Approval for parents and providers is not guaranteed for Military/DoD fee assistance programs.
- The provider rate displayed on the approval certificate should be the rate that is charged to any family regardless of whether they are in the military or not. The rate should include any discounts prior to receiving military fee assistance (i.e. multiple child discounts, employee discount, state and county child care fee assistance, etc.).
- If only the weekly rate is provided, it will be multiplied by 4.33 to determine the monthly rate. If this rate does not match the approval package, please contact us immediately at 1-800-424-2246 option 4.
